About Me

Welcome to my Website, let me tell you abit about myself, i'm 31 years old, and if you haven't noticed yet I quite enjoy the beauty of nature.

Some of my favourite pass-times are Rock Climbing, Gaming, Reading & Travelling. I also have an unquenchable thirst for learning, challenging myself and always trying to improve my weaknesses.

I live in sunny Brisbane with my partner and our dog, and we enjoy looking for the best restaurants we can find.

History

Not too many years after I left school, I left to go and join the Army, in which I spent almost 10 years, there were many ups and downs but always great experiences.

A few years before I left I decided it was a good idea to study a Bachelor of Computer Science part-time. Halfway through my degree I heard from an old friend about Coder Academy, and how great their experience was.

After struggling to find the time to manage full-time work in Defence and my Degree, I decided I needed a change, and it was right in front of me.

I left my Career, paused my Degree and set off to attend the Coder Academy Bootcamp.
